TRIVERITAS WIN PRESTIGIOUS INDUSTRY AWARD

**International Contract
Product Development
Consultancy wins "Best
Supporting Role" at the
Animal Pharm Industry
Excellence Awards 2007**

"The whole team were delighted to receive this award and recognition from the Industry" says Managing Director Julian Braidwood. "The company began in 2000 with just 3 industry experts, and since then the team has grown to more than 20 working in 4 offices across the EU".

Triveritas was particularly praised by the judging panel for their emphasis on sharing risk with clients. The panel also recognised Triveritas' last 12 month achievements which included the opening of new offices and completion of their first major start to finish development project. They also commented on their high client re-order rate, confirming the high standard of client service.

Reflecting on their achievements, co-founding Director **Sue Lester** commented "we believe our strength lies in building a team with expertise across all sectors of the industry. Not only have we worked in animal health companies, but we've also worked in regulatory agencies - so we can see the whole picture. By understanding both sides of the approvals process, we can pass on the benefit of this inside knowledge to our clients".

If you've never heard of Triveritas before, you may be surprised at how much support they have provided to clients in the animal health industry.

Turn over to read why clients keep coming back time and time again.

WHO ARE WE?

Triveritas is a dynamic international product development consultancy that delivers cost effective-solutions on time and on budget. With a strong client focus we offer a flexible approach and innovative strategies for the development and registration of veterinary **pharmaceuticals**, **biologicals** and **vaccines**.

We can offer you an outstanding range of specialist services:

- **Regulatory Affairs & Expert Reports**
- **Full Product Development**
- **VICH GCP Clinical Studies**
- **Quality Assurance (GxP)**
- **Strategic Project Advice & Project Management**

At **Triveritas** we share your sense of urgency to get your valuable products to market.

We can help you to succeed.

WHY USE TRIVERITAS?

Our team of experts;

- have over 200 years of animal health regulatory and R&D experience
- have worked in Pfizer, Merial, Fort Dodge, Schering Plough, Virbac, Novartis and UK VMD to name just a few
- cover all aspects of **quality**, **safety** and **efficacy** for both pharmaceuticals and biologicals

Since we began we have worked with;

- over 80 clients on over 400 projects
- 90% of the top ten animal health companies worldwide

This year alone, we have completed over 70 projects for 40 new/existing clients, and we have a re-order rate of around 95%; confirmation of the quality of the service we offer.
